Sapply of sub-standard coal to Thermal Power Stations

288. SHRIMATI KAMLA SINHA: Will the Minister of COAL be pleased to state:

(a) whether it is a fact that open cast mines of Coal India Limited arc producing sub-standard coal;

(b) whether it is also a fact that due to the supply of sub-standard coal, the machinery of coal washeries and thermal power stations is adversely affected; and

(c) if so, what corrective measures have been taken by Government in this regard?

THE DEPUTY MINISTER IN THE MINISTRY OF COAL (SHRI S. B. NYAMAGOUDA): (a) It is true that some of the coal produced from opencast mines of Coal India Limited does not conform to the stated specifications. This is mainly due to mixture of overburden with coal at the time of mining in opencast mines.

(b) Power Stations and other consumers have occasionally complained about damage to the Coal Handling Plants because coal received by them was larger than the size required.

(c) In order to ensure loading of uniform sized coal free from extraneous material. Coal Handling Plants are being provided at various loading points. Coal India is now laying great stress on quality control Complaints received from the different sectors' consumers are monitored and corrective action taken. The supervision of wagon loading at the collieries has also been tightened and all consumers have been given the facility for supervising loading of wagons at the loading point itself.
